

**Damodar Puthiya**  
 CEO Mobinius

“Teamwork makes the dream work”, aptly reflects the motivated spirit of our effervescent & efficient workforce, driving & inspiring us to accelerate our growth. We, at Mobinius are on a multidimensional growth spree, mapping new routes of success & accomplishments in our journey.

With a bouquet of providing various innovative & simplified business enabled solutions across various platforms, with successful clientele across the globe, Mobinius is now hailed to be amongst the top tech companies in India. Our core strength – technical capabilities have been nurtured by the best of the techie brains, creating stir in the market. Having established our presence across various domains, & sectors namely retail, automotive, construction & manufacturing etc, we predominantly continue to acquire strategic customers from healthcare, logistics & travel industries.

We would like to take pleasure in earnestly thanking each & everyone who have been a part of our incredible journey so far.

## Few super success stories

- Concept to production release of a Medical IOT based Health Exchange product scaling to 87 million AV consultations – a mobile & web based health care product for one of the top business conglomerates in India.
- Developing a mobile & web based communication and collaboration platform for Construction and Shipping Industries from Europe. Currently #1 in the construction Industry in Netherlands, with a staggering figure of 2.2.million live tickets!
- Saved 30% of development time and cost of a web and mobile based retail solution by using our Mobinius Solution Accelerator

## Delivering new possibilities

Our team at Mobinius has been at the forefront for creating a Netherlands based facility management software, for which we have deputed a team of 3 members, coordinating & working closely with our customer to create a roadmap or a strategy, providing cutting edge techno solutions!

We continue to create strong presence by expanding technology team to delivery technology solution to cloud based communication solution provider from US.

Developing an end-to-end business enabled solution across the mobile & web interface for a new customer in the healthcare domain in US.

Acquisition of a new customer in US an education solution provider, and currently working on the Cloud migration of their product

We continue adding value to our clients from education sector, by providing high tech DevOps, along with dynamic & vigorous UI development.

## Recognized globally!

Leaving no stone unturned, escalating higher swiftly and touted to be amongst the rapid growing tech firms, providing innovative & simplified business enabled solutions across various platforms, Mobinius is now considered to be amongst the leading top 20 organization's at the recently held Deloitte Techno Fast 50 India.

## Our customers speak about us that make us proud!

**Michiel Otterloo**

Founder  
Construction Management  
Software products  
Company from Netherlands

**Mobinius** – their work speaks everything for me! Right from our very first meeting, I am more than satisfied with their philosophy of being honest and communicating clear & concise ideas with a lot of vibrance & warmth! Being open for suggesting & receiving ideas, patiently

listening to what the client has to say, makes them a reliable & dependent partner to work with. At any given time, any query that needs to be resolved, is done on an immediate basis, making their deliverables quick on time, with utmost efficiency & transparency, makes Mobinius our trusted Technology Partner .

## Editor's note:

Technology today by far has travelled almost the “Milky Way” distance, fleetly seeping in our lives. Every single miniscule second of our day, witnesses the plethora of technology, touching & enriching our lives daily.

Times are here for advancements in new technologies, providing high-tech solutions for solutions across various business enterprises. It hence quintessentially, becomes more importantly to be techno – enabled. We are not only surrounded by the complexities of this web embedded technology, but also gain simplified business solutions, thanks to the sharp, razor edge methodical techie - techniques across platforms.

At Mobinius, we believe in delivering client centric, business enterprise solutions, across diverse platforms, catering to various sectors right from Automobiles, Retail, IT, Construction, Health care to Education, Manufacturing & Finance. Having successfully added some of the biggies to our clientele & garnering accolades, we have always been at the forefront thanking our loyal & most valued customers for showing their immense faith in us!

*We continue to reap fruits of success, nurtured with constant faith, dedication & reliability showered by our clients on us!*
